CyberSmart

Your journey to Cyber Essentials

Your quick and easy guide to becoming digitally secure

So you heard about 'Cyber Essentials'

STEP 01

Going for a tender and told you need something called Cyber Essentials? Worried about the rising threat of hackers? Just want to show your customers you care about their data? Either way, you've come to the right place.

Cyber Essentials is a UK government certification scheme designed to provide standards for protecting small and medium sized businesses from 80% of cyber attacks.

STEP 02

Sign up to CyberSmart

So you've done some research on Cyber Essentials and found us. Good work! We're the market leader in this area for SMEs and offer certification quickly and with as little faff as we can manage.

Visit cybersmart.co.uk, click sign-up, follow the easy steps. So far, so good.

Complete the questionnaire

STEP 03

This is the hard bit. You will have to answer all kinds of questions about your business' security. But luckily we're there with you every step of the way with simple instructions and easy, guided answers.

Have questions? We have live chat with unlimited support and the expertise of in-house auditors to make sure you pass first time.

Our quickest questionnaire submission by a customer was 15 mins using the CyberSmart app.
Can you do better?

STEP 04

Click Submit

Don't stop at certification- protect your business 24/7 with CyberSmart's automated software. Our app can be installed on every device to check for vulnerabilities every 15 minutes. You can see these reports in real-time through our dashboard and fix any issues in just a few clicks.

Once you hit submit, your form is sent off to our auditors to be reviewed. Should your questions fail, we advise where to correct. But don't worry- we've got a 100% pass rate. Guaranteed.

Get Certified

STEP 05

Receive your certificate within 24 hours of submission. Use the official logos on your website, marketing materials and share the achievement on your social media

The record for certification is 2 hours from submission by our speedy auditors.

Take it to the next level

One you've gotten this far, you're halfway to achieving the highest level of certification, Cyber Essentials Plus. Check out cybersmart.co.uk to book an assessment with one of our auditors and show how much you care about security..

Join the club of the thousands of UK businesses that are taking the next step to secure themselves and their customers' data.
